Microbit and Makecode Arcade website logins

Unfortunately, Microsoft's micro:bit and Makecode Arcade sites don't have the option to create a username and password that allows your child to log in and save their work. However, there are ways to deal with this.

Glow login

If your child has a Glow email address and password for school emails and iPads, this will work as it's actually a Microsoft account. (Their teacher should be able to help you find out if they have a Glow email yet).

Google account

If you have a gmail account you can set up a Google account for your child that you manage - instructions here: https://support.google.com/families/answer/7103338?hl=en

If you don't have an account you can set one up for yourself here: https://accounts.google.co.uk

Microsoft account

If you have a Microsoft account you can set up another Microsoft account that you manage here https://support.microsoft.com/en-gb/account-billing/ how-to-create-a-new-microsoft-account⬚a84675c3-3e9e-17cf-2911-3d56b15c0aaf

 If you don't have one you can create one for yourself first here https://signup.live.com/
